Kapitel 1: The black Knights

Lelouch
I will change the world
with hands stained in blood
I will walk through darkness
while closely holding this light
I won't let it get lost
within this shadow of blood

Karen
I belive in this light
so bright it will burn the shadows
I will fight for this light
so there won't be more shadows
I cannot see
the darkness within this light

C.C.
In my endless darkness
I've seeded so many shadows
that only darkness can understand me
that only darkness can hold me
so I entrust my light
to this darkness I've made

Ougi
Who do I trust
in this world everchanging
unable to see
the Direction we go
following this light
to heaven or hell

Diethard
Your dream shall come true
oh lord
I bend and twist

truth or lie
and your show goes on
no matter what
